Reserve

YALE I. R. NO. 4--Qualark (Area 27 acres).

Claimed

I.R.C. Allotment dated 23rd May, 1881--
"20 inches from Qualark Creek."

No evidence was submitted in support of this claim. It was therefore disallowed by the Board of Investigation for the following reasons:-

The allotment was not recorded in the Dominion Lands Office at New Westminster as others were.

There is no irrigable land on the reserve, and no residents.

In Railway Belt.

Reserve YALE I. R. NO. 5--Albert Flat (Area 150 acres).

Claimed I.R.C. Allotment dated 5th August, 1879, recorded in Dominion Lands Office at New Westminster 26th September, 1888--100 inches of water from Gordon Creek and all the water from all the springs and other sources on the reserve.

Summary of Adjudication. Board of Investigation (File 24-14-1).

Source-----Gordon Creek.

Quantity---Irrigation--95 acres at 1 acre foot per acre.

Domestic----500 gallons a day.

Priority---26th September, 1888.

Plans for irrigation to be filed.

Earlier rights of other users:

23rd August 1870 for Lot 7, G.L.Y.
19th April 1880 for Lot 48, G.L.Y.

Remarks Claims to water rights under the above record were officially abandoned for the following reasons:-

This reserve is not in the "Dry Belt" and the necessity of irrigation, at any time in the future, is very doubtful. Should it ever become necessary to resort to irrigation, a more suitable source of supply would appear to be Emory Creek on account of its proximity to the reserve. In any case there is an ample flow of water available in both streams and there should be no difficulty in obtaining a licence if and when required.

The record was subsequently cancelled under Board Order No. 5427.

|-------------------------------------|---|
| <u>Reserve</u> | YALE I. R. NO. 6--Squeah (Area 46 acres). |
| <u>Claimed</u> | I.R.C. Allotment dated 23rd May, 1881, recorded in Dominion Lands Office at New Westminster 26th September, 1888--25 inches of water from Squeah Creek. |
| <u>Summary of Adjudication.</u> | <p>Board of Investigation (File 15-19-1).</p> <p><u>Source</u>-----Squeah Creek (Suka Creek).</p> <p><u>Quantity</u>---Irrigation-34.8 acres at 1 acre foot per acre.</p> <p>Domestic---500 gallons a day.</p> <p><u>Priority</u>---26th September, 1888.</p> <p>Plans for irrigation to be filed.</p> <p>Earlier rights of other users - None.</p> |
| <u>Conditional Licence.</u> | Plans for irrigation were duly filed and C.L. 7529 issued in accordance with Board's adjudication. |
| <u>Remarks</u> | <p>The above licence provides for the irriga- tion of the total irrigable area on the reserve.</p> <p>In Railway Belt.</p> |

| | |

| <u>Reserve</u> | YALE I. R. NO. 7--Kaykaip (area 31 acres). |
| <u>Claimed</u> | I.R.C. Allotment dated 23rd May, 1881, recorded in Dominion Lands Office at New Westminster 26th September, 1888--20 inches of water from Kaykaip Creek. |
| <u>Summary of Adjudication.</u> | <p>Board of Investigation (File 16-10-1).</p> <p><u>Source</u>-----Kekum Creek (Kaykaip Creek).</p> <p><u>Quantity</u>---Irrigation-27.5 acres at 1 acre foot per acre.</p> <p>Domestic---500 gallons a day.</p> <p><u>Priority</u>---26th September, 1888.</p> <p>Plans for irrigation to be filed.</p> <p>Earlier rights of other users - None.</p> |
| <u>Conditional Licence.</u> | Plans for irrigation were duly filed and C.L. 7530 issued in accordance with the Board's adjudication excepting as to minor details. |
| <u>Remarks</u> | <p>The above licence provides for the irrigation of the total irrigable area on the reserve.</p> <p>In Railway Belt.</p> |

| | |
|-------------------------------------|---|
| <u>Reserve</u> | YALE I. R. NO. 8--Stullawheets (Area 134.5 acres) |
| <u>Claimed</u> | I.R.C. Allotment dated 5th August, 1879, recorded in Dominion Lands Office at New Westminster 26th September, 1888--50 inches of water from Stullawheets Creek. |
| <u>Summary of Adjudication.</u> | <p>Board of Investigation (File 26-14-1).</p> <p><u>Source</u>-----Stullawheets Creek.</p> <p><u>Quantity</u>---Irrigation-80 acres at 1 acre foot per acre.</p> <p>Domestic---500 gallons a day.</p> <p><u>Priority</u>---26th September, 1888.</p> <p>Earlier rights of other users:</p> <p>5th April, 1882, Lot 65 Yale-150 acre feet C.L. 2578.</p> |
| <u>Conditional Licence.</u> | C.L. 7158 issued in accordance with the Board's adjudication. |
| <u>Remarks</u> | <p>The above licence provides for the irriga- tion of the total irrigable area on the reserve.</p> <p>In Railway Belt.</p> |

Reserve YALE I. R. NO. 10--Skawahlum (Area 14.8 acres)

Claimed I.R.C. Allotment dated 12th August, 1879, recorded in Dominion Lands Office at New Westminster 26th September, 1888--20 inches of water from Skawayluk Creek.

Summary of Adjudication. Board of Investigation (File 27-14-1).
Source-----Skawayluk Creek.
Quantity---Irrigation-11 acres at 1 acre foot per acre.
Domestic---500 gallons a day.
Priority---26th September, 1888.
Plans for irrigation to be filed
Earlier rights of other users - None.

Remarks No plans have been prepared for the irrigation of the small irrigable area on this reserve for the reason that it is doubtful if irrigation is necessary in this locality excepting during unusually dry season. Furthermore the stream referred to as Skawaluk Creek has not been identified and no stream was found near enough to the reserve to warrant consideration of an irrigation system for the benefit of so small an area.
The record was officially abandoned November 23rd, 1925, and was subsequently cancelled under Board Order No. 5445.

| <u>Reserve</u> | YALE I. R. NO. 11--Puckatholetchin (Area 566.5 acres) |
| <u>Claimed</u> | I.R.C. Allotment dated 12th August, 1879, recorded in Dominion Lands Office at New Westminster 26th September, 1888--150 inches inches of water from American Bar Creek. |
| <u>Summary of Adjudication</u> | <p>Board of Investigation (File 28-14-1).</p> <p><u>Sources</u>-----American and Pucka Creeks.</p> <p><u>Quantity</u>----Irrigation-475 acres at 1 acre foot per acre</p> <p style="padding-left: 100px;">Domestic----1000 gallons a day.</p> <p><u>Priority</u>---26th September, 1888.</p> <p>Plans for irrigation to be filed</p> <p>Earlier rights of other users - None.</p> |
| <u>Conditional Licence.</u> | Plans for irrigation duly filed and C.L. 7883 issued in accordance with the Board's adjudication. |
| <u>Remarks</u> | The above Conditional Licence provides for the irrigation of the total irrigable area on the reserve. |

In Railway Belt.

Reserve YALE I. R. NO. 12--Klacklacum (AREA
71.75 acres)

Claimed I.R.C. Allotment dated 12th August, 1879,
recorded in Dominion Lands Office at New
Westminster 26th September, 1888--20 inches
of water from American Bar Creek.

Summary of
Adjudication. Board of Investigation (File 29-14-1).
Source-----American Ban Creek.
Quantity---Irrigation--13.5 acres at 1
acre foot per acre
Domestic---500 gallons a day.
Priority---26th September, 1888.
Plans for irrigation to be filed.
Earlier rights of other users - None.

Remarks Claims to water under the above record
were officially abandoned November 23rd,
1925, on account of the excessive cost
of works to convey the water from the
recorded source for the irrigation of
only 8 acres of land. there are no res-
idents on the reserve and the necessity
for irrigation in the locality, excepting
during unusually dry seasons, is doubtful.
The record was subsequently cancelled
under Board Order No. 5440.

| <u>Remarks</u> | <p>The above licences provide for the irriga- tion of the total irrigable area on the two reserves.</p> <p>In Railway Belt.</p> |

| | |
|--------------------------------|--|
| <u>Reserve</u> | YALE I. R. NO.15 - Aywawwis (Area 229.4 acres). |
| <u>Claimed</u> | I.R.C. Allotment dated 12th August, 1879-50 inches of water from all sources available. |
| <u>Summary of Adjudication</u> | <p>This allotment was not filed for record as others were in the Dominion Lands Office at New Westminster, and no evidence could be submitted to the Board of Investigation in support of claims to water from any particular source.</p> <p>The claim was therefore disallowed.</p> |
| <u>Remarks</u> | Irrigation is not considered necessary in this locality excepting in very dry seasons. Application for domestic water rights should be filed if a suitable source of water supply can be found. |

Reserve Spuzzum I. R. No. 1--Spuzzum (Area 302 acres).

Claimed I.R.C. Allotment dated 21st May, 1878, recorded in Dominion Lands Office at New Westminster 26th September, 1888--
 200 inches of water from Spuzzum Creek.
 50 inches of water from the Creek West of the Reserve.
 50 inches of water from the Creek on mile below the Reserve.

Summary of Adjudication. Board of Investigation (File 13-14-1).
Sources-----Spuzzum Creek and tributary.
Quantity----Irrigation--88.5 acres at 1½ acre feet per acre.
 Domestic----3500 gallons a day.
Priority---26th September, 1888.
 Plans for irrigation from Spuzzum Creek to be filed.
 Earlier rights of other users -
 24th August, 1881, Lot 4, G.1,--38 ac.ft.
 C.L. 3407.

Conditional Licence. C.L. 7142 issued under Board Order No. 6656 for 132.7 acre feet of water, to be diverted from Skeemis Creek, a tributary of Spuzzum Creek.

Remarks. The feasibility of obtaining an irrigation supply of water from Spuzzum Creek at reasonable cost is very doubtful and should not be considered at present. The creek carries an abundant supply of water if it should be needed in the future and priority of right is not important.

| <u>Summary of Adjudication</u> | <p>Board of Investigation (File 4-10-1)</p> <p><u>Source</u>----Unnamed streams.</p> <p><u>Quantity</u>--1000 gallons a day for domestic purposes including irrigation of 1/4 acre.</p> <p><u>Priority</u>--26th September, 1888.</p> <p>Plans to be filed showing sources of water supply.</p> |
| <u>Remarks</u> | <p>The area of this reserve is only 3.25 acres of which about 1/4 acre is reported as cultivable. There are neither res- idents nor habitations on the reserve and the existence of any source of water supply, to which the above record could apply is very doubtful. No streams were found on or near the reserve nor are there any water- courses or sources shown in the original. survey notes or on the Railway Belt Town- ship Plan of the vicinity.</p> <p>Claims to water rights were therefore officially abandoned November 23rd, 1925, and were subsequently cancelled under Board Order No. 620.</p> |

Reserve BOSTON BAR NO. 7--Shrypttahooks (Area 87
acres)

Claimed I.R.C. Allotment dated 1st June, 1878,
recorded in Dominion Lands Office at New
Westminster, 26th September, 1888--100
inches of water from Skuzzy Creek and all
the water from all the springs and other
sources on the reserve.

Summary of
Adjudication. Board of Investigation (File 1-14-1)

Source----Scuzzy Creek.

Quantity--Irrigation-44.4 acres at 1½ acre
feet per acre.

Domestic---500 gallons a day.

Priority--26th September, 1888.

Plans for irrigation to be filed.

Remarks Scuzzy Creek carries an abundant supply of
water, but to tap this reserve for irriga-
tion of 44 acres would be an expensive
undertaking and should not be considered
at the present time. If it is decided at
some future time to construct an irriga-
tion system, there will be no difficulty
in obtaining a water licence as priority
of right is not important. For this
reason the above record was officially
abandoned on November 23rd, 1925, and sub-
sequently cancelled under Board Order
No. 6642.

Conditional Licence. C.L. 7888 issued under Board Order No. 8009 in accordance with adjudication excepting that no storage is authorized.

(Continued on next page).

C.L. No. 7964 issued under Board Order No. 8018 authorized the diversion of 447 acre feet of water for irrigation and 1000 gallons a day for domestic use, from an unnamed spring on the reserve. This licence is supplementary to C.L. 7888, and takes precedence from the same date.

Remarks

Upon further investigation it was found that this reserve does not require storage. The developed storage has been divided between the Indians and parties entitled to same, according to their respective interests in storage works at the outlet of Botanie Lake. Storage quantities and lands to be benefited are fixed by licences.

Conditional Licences Nos. 7888 and 7964 provide for the irrigation of the total irrigable area on the reserve.

Lytton I.R. No. 8--Maka (Area 10 acres)

Not Claimed

I.R.C. Allotment 10 July, 1878, recorded in Dominion Lands Office at New Westminster 26 September, 1888--5 inches from N-cha-ka-uis-ken Creek (Bootahnie Creek).

The location of this reserve is not definitely known. Township Plan shows position uncertain and neither the Indian Agent at Lytton nor the Lytton Indians were able to furnish any definite information.

If the Indians ever wish to work this land and its boundaries are re-located, there should be no difficulty in obtaining a right to divert water from Bootahnie Creek if and when required.

Claims to the above record were therefore officially abandoned November 23rd, 1925.

| <u>Conditional Licence.</u> | <p>C.L. 7165 issued under B.O. 5747 covering that part of reserve lying East of Fraser River of which 90 acres are irrigable.</p> <p>(Continued on next page).</p> |
| <u>Remarks</u> | <p>Claims to water under allotments dated 25th July, 1881, disallowed because they are not founded upon Provincial Water Records.</p> <p>Claim to water from two small streams</p> |

tributary to Watson Bar Creek under Provincial Water Record dated 17th August 1898, were disallowed because the sources described in the record are three small streams falling into the Fraser River below Watson Bar Creek. No such streams exist, but the Board held that the record applied to no other and it was therefore cancelled under Board Order 7549.

Claim to water from Watson Bar Creek under Provincial Record dated 3rd November, 1903, was officially abandoned November 23rd, 1925.

This record fixes the point of diversion at one mile from the mouth of Watson Bar Creek. As it would be impossible to irrigate land on the reserve from an intake situated at this point, it was proposed to locate an intake at a suitable point further upstream, and by utilizing an old mining ditch, to obtain an economical irrigation system to the reserve.

Upon investigation it was found that the intake of the old mining ditch referred to, is not from Watson Bar Creek as was supposed but is located on a tributary of Watson Bar Creek, known locally as Red Creek. The distance from this intake to the reserve is approximately 5½ miles.

To obtain water from Watson Bar Creek it would be necessary to locate an intake at a considerable distance beyond Red Creek which is the logical source of supply to be considered. The Record is therefore of no value.

Note:- The estimated cost of repairing the old mining ditch from Red Creek to the Reserve is \$8,200.00 and as there is approximately 100 acres of irrigable land, the capital cost per acre irrigated would be about \$82.00. There are no means of transportation for getting produce from the reserve to a market and it would seem that an expenditure of \$82.00 per acre for irrigation is not justified under present conditions.

This reserve is now included in the Williams Lake Agency.
