ANNOTATED 1943 SCHEDULE

It is believed that this version of the 1943 Indian Reserve Schedule was annotated in part by Ian Malcolm Douglas Fox, who was the first Regional (District) Surveyor for B.C.; the handwriting is believed to be his. It is not known who did some of the typed entries, except for the most recent ones, which refer to the errors and anomalies section. These later notations were made as a result of research done during the re-construction of the federal set of Minutes of decision and correspondence. The note numbering on the text page corresponds to notes on the facing page.

Two of the original pages in this version are incomplete. This suggests that this version is a copy, but it is, perhaps, merely a flawed contemporary copy. The typeface and paper of the original indicate that it is quite old.

Many band and reserve names have changed since 1943. Nevertheless, this particular schedule is valuable for its information. No other later reserve schedule provides the detail this one does. This includes: date of reserve allotment, original survey dates, citations of surrenders or leases to 1943 (and later in the notations), reserve size and descriptions and reference to plans.

There appear to be a number of 1943 Schedules in existence, many of which have a set of notations. Some notations are the same, but some differ. No doubt this has come about through ongoing use of the schedule.

This schedule is noted as being "Part 2". "Part 1" is, apparently, a schedule of maps. This section of the schedule has not yet been located.

This photocopy has been slightly enlarged from the original.

ERRORS/ANOMALIES IN THE 1943 SCHEDULE

- p. j The Karlukwees reserve is incorrectly identified as held by "Turner Valley", it should be Turnour Island.
- p. 1 Kuthlalth is incorrectly spelled "Kuthlalt"
- p. 4 Missing from the Schedule is a reference to Ksoo-gun-ya 2, allotted by O'Reilly September 29, 1891. This reserve as a timber reserve and it burned to the ground sometime between 1891 and 1898. Ksoo-gun-ya 1 was formally cancelled August 15, 1898 and Ksoo-gun-ya 2A allotted in its place by Vowell. [See Fed. M.O.D., Correspondence & Sketches, vl. 13, pp. 256-71; vl. 14, pp. 19-22]
- p. 18 Chemainus 13 was also known as Sickameen.
- p. 20 For Cowichan Lake; two reserves were originally allotted by O'Reilly on May 31, 1887. The allotment at Honeymoon Bay was disallowed in 1898. [See Fed. M.O.D., Correspondence & Sketches, vl. 20. pp. 1a-2]
- p. 26 Sahhaltkum 4A is now included within Sahhaltkum 4.
- p. 26,27,30,32 The date of allotment shown for Switsemalph 6, and Switsemalph 7 of the Adams Lake band, Switsemalph 3 of the Neskonlith band and North Bay 5 of the Little Shuswap band is shown as the date the Joint Indian Reserve Commission dealt with these Bands - August 13, 1877 and August 14, 1877, respectively. The area comprising these reserves was to be held in common between the Neskonlith, Adams Lake and Little Shuswap Lake Indians. The JIRC dated the description of the common reserve lands August 16, 1877. It would seem, however, that *none* of these dates is truly correct as these reserves were substantially altered at a later date. The area comprising Switsemalph 3, 6 and 7 was enlarged and then divided between the Neskonlith and Adams Lake Indians. The area comprising the second common reserve appears to have been given in its entirety to the Little Shuswap Indians. The date of alterations to these reserves is not known. It is not entirely correct to state that the current reserves were allotted by the JIRC. An original allotment in the area was made by the JIRC, but the current reserves were determined at a later date. [See Fed. M.O.D., Correspondence & Sketches, vl. 3, pp. 180, 190, 198-200, 202-204; vl. 16, p. 11]
- p. 27 For Upper Hat Creek 1, the Schedule states that Sproat allotted the reserve on August 8, 1878. While Sproat dealt with some Bonaparte reserves on or about this date, he did not allot Upper Hat Creek 1. O'Reilly allotted the reserve August 6, 1881. [See Fed. M.O.D., Correspondence & Sketches, vl. 9, p. 286]

- p. 28 The allotment of the Mauvais Rocher 5 is incorrectly shown as having been done by O'Reilly, August 6, 1881. Sproat allotted this reserve August 10, 1878. The date of the survey for Mauvais Rocher 5 is shown to be 1883. While a survey of the Bonaparte reserves was conducted by John Gastineau in 1883-84, it did not include Mauvais Rocher. Plan 4, as cited in the Schedule, was done by E.M. Skinner in 1885. Interestingly, this reserve was enlarged by surveyor E.M. Skinner in 1885 when he was doing the survey as he found that the allotment of 50 acres was insufficient to include all the buildings and cultivation. [See Fed. M.O.D., Correspondence & Sketches, vl. 5/3, pp. 53-54; FBBC 69, p. 2]
- p. 32 The date of allotment for North Bay 5, Little Shuswap Lake Indians, is erroneously shown to be August 14, 1877. It should read August 16, 1877. [See Fed. M.O.D., Correspondence & Sketches, vl. 3, pp. 204-06]
- p. 43 Re Ches-la-kee 3, Nimpkish, the date of allotment of October 20, 1884 is incorrect. This reserve was allotted on O'Reilly's second visit to the area. The correct allotment date is September 21, 1886. [See Fed. M.O.D., Correspondence & Sketches, vl. 11, p. 261]
- p. 44 There appears to be some confusion as both the Indian Affairs Reserve General Register and the 1943 Schedule state, apparently erroneously, that Klaskish 3 was originally allotted to the Quatsino band. Klaskish 3 was originally allotted to the Klaskino Indians, July 9, 1889. It is not known when this reserve was transferred to the Quatsino Indians. [See Fed. M.O.D., Correspondence & Sketches, vl. 12, pp. 175-81]
- pp. 47-48 The date of allotment shown for Loughborough 3 and Homayno 2 as October 2, 1886 is incorrect. O'Reilly did not arrive in the area until October 5. The allotments were made October 8, 1886. [See Fed. M.O.D., Correspondence & Sketches, vl. 11, p. 284]
- p. 50 The plan number given for Kahmoose 4 is shown to be 289; it should be 9.
- p. 53 Date of the allotment for Bucktum 4 and Austin Flat 3 is incorrectly shown as June 1, 1877, but it should be June 1, 1878. [See Fed. M.O.D., Correspondence & Sketches, vl. 6, pp. 15-16, 28-31]
- pp. 63-68 The Schedule states that Sproat allotted numerous Lytton reserves, however, no Minutes of decision confirm that Sproat allotted the reserves. Moreover, it was not Sproat's practice to identify a reserve with a number and a letter, e.g. Lytton 9A. Indeed, it was not Sproat's practice to number his reserve allotments. It would appear that Lytton 9A and 9B, Skwayaynope 26, Lytton 26A; Papyum 27; Papyum 27A, 27B & 27C, and Lytton 31 were included *within the area of a temporary reserve* set aside by Sproat July 10, 1878. Styne 9A abuts the temporary reserve. Subsequent to Sproat's work in the area, these reserves were confirmed by the McKenna-McBride Commission. These allotments do not appear within the comprehensive list of reserves allotted prior to 1910 (the OBI), however, they were confirmed as reserves by McKenna-McBride. It would seem most likely that these reserves were assigned or deemed allotted while A.W. Vowell was Indian Reserve Commissioner (1898-1910). It is possible that correspondence exists on file 29858¹⁰, Vol. 11, which is the subsequent volume to file found in the federal collection. This file can be found in RG10.

- pp. 77-78 Date of allotment for Papsilqua 2, Teequaloose 3, Yelakin 4 and Long Tunnel 5 is incorrectly shown as May 21, 1877. The correct date is May 21, 1878. [See Fed. M.O.D., Correspondence & Sketches, vl. 6, pp. 6-8]
- p. 80 Although Sproat made the initial allotment of Kuthlalth 3, O'Reilly later confirmed and enlarged the reserve. [See Fed. M.O.D., Correspondence & Sketches, vl. 5/1, pp. 6-7; vl. 10, p. 103]
- p. 87 The dates of survey shown for Lelachen 6, Tipella 7 and Douglas 8 is incorrect. The Schedule says the original survey was in 1882, but these reserves were not allotted until May 5, 1884. The first 5 Douglas reserves were allotted in 1881 and these were surveyed in 1882. O'Reilly returned to the area in 1884 and allotted reserves 6, 7 and 8. There is a note on CLSRBC 151 indicating that Jemmett was there in 1882-83 and 1884-85. The notation for Douglas 8 should indicate that the reserve was surveyed in 1884-85. [See Fed. M.O.D., Correspondence and Sketches, vl. 10, pp. 82-90]
- p. 99 Date of allotment for Kloklowuck 7 is incorrectly shown as July 20, 1878. The correct date is August 16, 1878. [See Fed. M.O.D., Correspondence and Sketches, vl. 6, p. 91]
- Date of allotment for Pemynoos 9 is incorrectly shown as June 30, 1880. The correct date is July 20, 1878. [See Fed. M.O.D., Correspondence & Sketches, vl. 6, p. 106]
- p. 106 Date of allotment for Naykikoulth 13 is incorrectly shown as July 13, 1878. The correct date is August 16, 1878 [See Fed. M.O.D., Correspondence & Sketches, vl. 3, p. 330]
- p. 107 Re Nepa 4, Oregon Jack Creek, name of Commissioner who allotted the reserve is omitted. It was originally allotted by Sproat, August 3, 1878. [See Fed. M.O.D., Correspondence & Sketches, vl. 5/3 pp. 8-9]
- p. 108 Date of allotment for Long Lake 5, Okanagan is incorrectly cited as the JIRC in 1887 - as the JIRC ceased operation in 1878, this cannot be correct. The correct date of allotment is October 15, 1877. [See Fed. M.O.D., Correspondence & Sketches, vl. 3, p. 218]
- p. 111 Date of allotment for and Commission[er] who allotted Timber 2, (a.k.a. Penticton 2) is incorrectly shown as O'Reilly. July 31, 1895. This reserve was originally allotted by the JIRC November 24, 1877. The land of the reserve was disputed. There were subsequent changes made by O'Reilly to this reserve. [See Fed. M.O.D., Correspondence & Sketches, vl. 3, pp. 238-40; vl. 13, pp. 21-35]
- Date of allotment of Nicola Prairie 3 is incorrectly cited as having been allotted by the JIRC in 1887. This correct date is November 24, 1877. [See Fed. M.O.D., Correspondence & Sketches, vl. 3, p. 238]
- p. 113 The allotment information implies that Sproat allotted both Keremeos Forks 12 and 12A. Keremeos 12 was allotted by Sproat, but 12A was allotted by O'Reilly as an extension of Keremeos Forks 12 in August 1893. [See Fed. M.O.D., Correspondence & Sketches, vl. 5/3, p. 67; vl. 14, pp. 224-31]

- p. 115 The allotment information for Sicamous 3 is incorrect. A reserve was allotted by the JIRC Sept. 3, 1877 at Eagle Pass, but this reserve was cancelled. The JIRC was disbanded in 1878. The land given in place the Eagle Pass reserve was Sicamous 3. This was arranged/allotted by O'Reilly in 1893. [See Fed. M.O.D., Correspondence & Sketches, vl. 3, p. 210, vl. 14, pp. 202-05]
- Date of allotment of the Graveyard is incorrectly shown as August 11, 1893 by the JIRC and the original survey is incorrectly cited as 1901. This reserve was allotted by the JIRC September 3, 1877. The original survey was by Mohun in 1881. [See Fed. M.O.D., Correspondence & Sketches, vl. 3, p. 210; CLSRBC 216].
- p. 120 Date of allotment for Talahaat 16 is incorrectly shown as September 6, 1888. The correct date is September 8, 1888. [See Fed. M.O.D., Correspondence & Sketches, vl. 11, pp. 27, 35, 48]
- p. 126 Date of original allotment for Kitselas 1 is October 6, 1891. The date shown in the Schedule is the re-allotment by O'Reilly. [See Fed. M.O.D., Correspondence & Sketches, vl. 13, p. 245; vl. 14, pp. 174-75]
- p. 128 The allotment and original survey information for Kitladamax 1A is incorrect. The correct date of allotment is September 8, 1889. The correct date of the original survey is October 20, 1881. [See Fed. M.O.D. Correspondence & Sketches, vl. 11, pp. 25-48]
- pp. 128-29 Date of allotment for Amatal (Fishery) 5, Amatal 6, Kitwilluchilt 7 and Andegulay 8 is incorrectly cited as September 3, 1888. The correct date is October 20, 1881. [See Fed. M.O.D., Correspondence & Sketches, vl. 9, pp. 76-113]
- p. 132 The date of allotment for Tsimpsean 2 is shown as February 24, 1884. This reserve was originally allotted October 19, 1881. There was an amendment to the original allotment dated February 24, 1884. [See Fed. M.O.D., Correspondence & Sketches, vl. 9, pp. 18-57; vl. 11, pp. 301-307]
- pp. 146 There appears to be a type-o with respect to Cheslatta 11, Whiteye Lake, which was sold to Alcan in 1952. It states that the plan on which the reserve appears is 390A, when, in fact, it is 390. There is no plan 390A. The SRIS, the manual CLSR and other sources were checked and there is no plan 390A. Unfortunately, this error was perpetuated in an agreement with Alcan. The correct plan number is 390.
- p. 160 The allotment information for Homalco reserves 1 through 4 (excluding 2A) is incomplete. Sproat made the original allotments for these Indians in January 1880. [See Fed. M.O.D., Correspondence & Sketches, vl. 18, pp. 45-55]
- p. 161 The allotment information for Klahoose reserves 1 through 9 is incomplete. Sproat made the original allotments for these Indians in October 1879. [See Fed. M.O.D., Correspondence & Sketches, vl. 18, pp. 21-43]

- pp. 165-66 The allotment information for Sliammon reserves 1 through 6 is incomplete. Sproat made the original allotments for these Indians in August & September 1879. [See Fed. M.O.D., Correspondence & Sketches, vl. 18, pp. 7-19]
- pp. 171-72 The dates of allotment noted for the "Clayoquot Tribe" are partly incorrect. Reserves 1 through 5 are incorrectly shown to be allotted by O'Reilly July 8, 1898. The correct date of allotment for reserves 1 through 5 is June 4, 1889. [See Fed. M.O.D. Correspondence & Sketches, vl. 12, pp. 303-346]
- p. 176 The date of allotment for Hesquiat reserves 1 through 5 is incorrectly shown as June 23, 1886. The correct date is June 26, 1886. O'Reilly didn't arrive at Hesquiat until June 24, 1886. [See Fed. M.O.D., Correspondence & Sketches, vl. 11, pp. 293-300]
- p. 191 Date of allotment for Alkali Lake reserves 8 through 14 [excluding 9A and 11A] is incorrectly shown and the Commissioner identified as having allotted the reserves, Vowell, is also incorrect. O'Reilly allotted these reserves August 30, 1895. Further, reserves 16 and 18 are incorrectly shown as having been allotted by O'Reilly. [See Fed. M.O.D., Correspondence & Sketches, vl. 14, pp. 117-25].
- p. 194 Date of allotment for Canoe Creek reserves 1 through 3 and Graveyard 7 is correctly shown as July 21, 1884. The correct date is July 21, 1881. [See Fed. M.O.D., Correspondence & Sketches, vl. 8, pp. 85-104]
- p. 195 Clinton 2A is shown as having been allotted by O'Reilly. This is incorrect. This reserve was allotted by the McKenna-McBride Commission, March 15, 1915.
- Kelly Creek 3 is also shown as having been allotted by O'Reilly. This is incorrect. This reserve was allotted by the McKenna-McBride Commission, March 27, 1915.
- p. 197 Date of allotment for Soda Creek 1 is incorrectly shown as July 2, 1881. This reserve was allotted was June 20, 1881. [See Fed. M.O.D., Correspondence & Sketches, vl. 14, p. 138]
- p. 198 Date of allotment for the Williams Lake reserves is incorrectly shown as July 16, 1881. The correct date of allotment is June 16 1881. [See Fed. M.O.D., Correspondence & Sketches, vl. 8, pp. 217a-252]

PREFACE

In the preparation of this schedule of Indian Reserves in the Province of British Columbia, it is the object to furnish a ready reference to pertinent information necessary for administrative purposes both for office and the field.

Due to the peculiar circumstances which obtained in the Province of British Columbia, reserves had been classified into two parts:

(1) Those reserves lying in the forty mile wide strip of country formerly known as the Railway Belt, administration of which was under the Government of Canada up to the first day of August 1930, when the administration of it and the Peace River Block were transferred, with the natural resources, to the Government of the Province of British Columbia by authority of "The Railway Belt and Peace River Block Act" (20-21 George V Chapter 37).

(2) Those reserves lying outside and beyond the Railway Belt and the Peace River Block.

In the first mentioned, lands were set aside and title given under authority of Dominion Orders in Council passed from time to time as required. In the latter the lands set aside in accordance with the terms of The British North America Act were, for the greater number of reserves conveyed and transferred from the Crown Provincial to the Crown Dominion by Provincial Order in Council No. 1036, dated the 29th day of July 1936. In the several other cases title was conveyed by separate Orders in Council.

Additional lands have from time to time been purchased from the Province and from private sources and set apart as Indian Reserves to satisfy the needs of the Indians. Title to these parcels is by Provincial Crown Grant or Certificate of Title.

Indian Reserves are grouped to form Agencies for administrative purposes. The governing factor in placing a reserve in a certain agency is its accessibility from the Agency Headquarters rather than by fixed lines enclosing an area of country. There are eighteen agencies in British Columbia. These are outlined on the sketch in the map volume accompanying this schedule.

In each agency the reserves have been set aside for particular bands of Indians with an assigned number to each reserve. Usually they have also a distinctive name.

In the development of the country it has been advantageous to dispose of reserves or portions thereof and to alienate or transfer title from the Crown Dominion to private ownership or to the Crown Provincial. When such lands have passed "in fee simple" title is conveyed by Dominion Letters Patent. When lands forming Indian Reserves already vested in the Crown Dominion are required by the Province of British Columbia for roads or other public works the transfer is by Dominion Order in Council. The areas thus alienated are no longer part of the reserve under the administration of the Indian Affairs Branch and are therefore deducted from the original area of the reserve.

The following schedule of Indian Reserves is indexed to show the several agencies with the number of the pages recording the reserves therein; also an index to Indian Bands with Agency and page numbers, as well as an index to the details for each reserve with the page number on which it is recorded.

The information recorded for each reserve shows, in the first column its number; in the next the official name with the local name where such exists, appended; in the third column is the name of the Band or Tribe to which the reserve belongs; in the fourth column is a brief description as to the location of the reserve with reference to available designated maps; the fifth column lists the area of the reserve remaining to the administration after all alienations have been deducted as at the 31st day of March, 1943. Alienation means that title to the area of land has actually passed from the Crown Dominion; it does not refer to any lands under lease or permit of occupation or otherwise given over for use, where title is not involved. In the remarks column is a statement as to authority for constituting the reserve; the date of the original and any subsequent surveys of the reserve boundaries; the recorded plan numbers, the accepted area of the original reserve, as well as derivation of title. In this column also is enumerated the details of any alienations with their respective authorities, plan numbers and the areas alienated. A total of the alienations, if any, added to the area listed in column five will give the total of the accepted area of the original reserve. When there are no alienations the area in column five is the same as the accepted area in the remarks column. Where additional areas have been added to the reserve the details of these acquisitions are listed in the remarks column. These additions plus the area of the original reserve less alienations, if any, will give the area in column five.

In general the authority for spelling, for names of reserves, is the old schedule of Indian Reserves of 1913, excepting in cases where there is a ruling by the Geographic Board of Canada.

Sketches showing the location of the reserves in each agency are to be found in the Map Volume which accompanies this schedule.
